DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-7, 9, 10, 21 are rejected under 35 U.S.C. 102(b) as being anticipated by Malmquist.

Malmquist discloses a metal foil (24) and a metal plate (30, 33), protrusion or rib (50) being fitted into a hole (Fig. 10) (re claims 1, 9, 10, 21).

Re claims 2, 3, 6, wherein the protrusion is formed by rolling an edge of the metal foil or bending an edge of the metal foil (Fig. 10).

Re claims 4, 5, an attaching means (12) which is equivalent to a screw.

Re claim 7, the limitation of "drawing process" has been considered, but does not result in a structural difference. The presence of process limitations in product claims, which product does not otherwise patentably distinguish over prior art, cannot impart patentability to that product. In re Stephens 145 USPQ 656 (CCPA 1965).

Response to Arguments

Applicant's arguments with respect to claims 1-7, 9, 10, 21 have been considered but are moot in view of the new ground(s) of rejection. Therefore, the finality of the last office action is withdrawn.
